DESIGN

Since

the introduction of the new HUBBELL Filing Chests, our first offering direct to the public, we have been literally deluged with requests for other items. This is attributable solely to the fact that purchasers of the Chests were tremendously impressed with the buys they had made. Such outstanding beauty, fine quality of materials and workmanship, obtained at our unprecedented low factory prices, proved a most gratifying experience. On this and the following pages are presented new members of the growing family of fine furniture by HUBBELL, brought out in response to popular request. Each may be bought direct from the factory, in complete confidence of thorough satisfaction.
